We are thrilled to share the exciting adventures and impactful moments from Dr. Jeremiah Mothibi's recent ten-day road trip across five incredible countries. This journey was not just a physical exploration but a deep dive into building connections, sharing resources, and fostering fellowship with our esteemed National Directors and their representatives.

Dr. Mothibi embarked on this adventure with five clear objectives, and we are delighted to report that every single one was met with resounding success! Here's a glimpse into the fantastic voyage:

1. MOTMOT Curriculum Deliveries: Dr. Mothibi personally handed over ten copies of the MOTMOT curriculum to each country, ensuring that our transformative materials reach the hearts and minds of those who need them most.

2. Face-to-Face Meetings: Building personal connections is at the core of our mission, and Dr. Mothibi made it a priority to meet with each National Director or their representatives in person. Nothing beats the power of face-to-face interactions!

3. Fellowship and Camaraderie: Beyond official meetings, the trip provided opportunities for fellowship and camaraderie. Sharing stories, laughter, and dreams strengthened the bonds that make our organization a true family.

4. Witnessing Local Environments: To truly understand the challenges and triumphs of our leaders, Dr. Mothibi took the time to visit the homes and workplaces of the individuals he met. This firsthand experience deepened his appreciation for their dedication and resilience.

5. Listening to Challenges: A crucial aspect of the journey was hearing about the challenges each country faces. Understanding the unique circumstances in which our National Directors op-
